

glasstronomy studios

Green handled groziers and blue running pliers,
Band aids on standby, with tips from old timers,
My red coloured glass cutter for score lines that
“sing”

These are a few of my favourite glass things

Sizzling hot iron and solder running smooth
Shiny glass pieces that fit into each came groove
Horse shoe nails and hammer for holding them in
These are a few of my favourite glass things

When work is high stress,
And life’s one big mess
And I feel so sad
I simply remember my favourite glass things
And then I don’t feel so bad ...

Freshly pulled stringers and pot melts from glass
scraps

Dichroic pendants covered with crystal clear caps
Powders and frit on hand for kiln casting
These are a few of my favourite glass things

In studio workshops and annual glass art show
Chances to create, share, learn, and to grow
Special social events and other offerings
These are a few of my favourite glass things

When work is high stress,
And life’s one big mess
And I feel so sad
I simply remember my favourite glass things
And then I don’t feel so bad ...

Glasstronomy Studios open house: September 30, 2012

We acknowledge and apologize to Oscar Hammerstein II for our adaptation of his lyrics to “My Favourite Things” from *The Sound of Music*.
