Season's greetings

As religious and secular holidays get underway, we want to thank our customers and members for their business, enthusiasm, and support this past year. We hope you share our optimism for 2016 and its potential for glass creativity and development.

Cook off | Holiday edition

In October our members competed in our latest cook off. In 2-1/2 hours, three teams created unique glass gingerbread houses with stained glass and fused glass techniques. The judges' scores have been tallied but the teams are relying on your Facebook "Likes" to win the popular vote. To participate, simply visit our Facebook page by Thursday, December 17, 2015, and look at the photo galleries for each team: Blue, Green, and Red. "Like" any photo and it will count as a vote. These will be totaled and added to the judges' scores. **Thanks for your support!**

Free patterns

We have added two new “sweet” candy-themed patterns to our free library. Choose from a bevel-sided copper foiled bijoux box or a fused planter stake.
