

Summer art glass experience

July sees the start of our summer semester here at the studio. We are pleased to introduce a variety of art glass sessions with in-depth instruction meant to enhance your knowledge and skills while engaging your creativity. Whether you're looking for a challenge or to relax in artistic bliss, sign up and be inspired by fellow glass lovers while keeping cool and joyously occupied. Lunches included. For more information and session descriptions visit our [website](#).

Success in *Las Vegas!*

We recently spent an inspiration packed five days at the Las Vegas Glass Craft and Bead Expo. Among others who practice our trade, professionals of all levels and hobbyists alike, we learned, discussed and took in all the education and trade show had to offer. We were fortunate to meet several published instructors, win the advanced glass cutting competition as well as ogle over the hot flame workers competing for People's Choice. We also had the opportunity to see what was new in the industry and strike up new relationships with the companies that best represented the future of stained and kiln worked glass. We have brought back several new products for retail to our members and the general public.

Summer courses

Advanced fusing II Glass Sculpture

July 8 through 11
10 am–4 pm

Kiln casting Glass Blocks

August 19 through 22
10 am–4 pm

All I learned in Vegas

Hollander Glass Canada

Our friends at Hollander Glass Canada are undergoing an interruption in their operations.

We are saddened to see them suffer and hope that things will resume under new ownership. We send all their staff our very best wishes.

Glasstronomy Studios aims to support Canadian businesses as well as provide quality product to our customers. We will continue to meet the needs of our clientele with our diverse and creative business practices. We look forward to serving you now and in the future.

GS Project kits

Due to popular demand we now retail Glasstronomy Studios Mica, Iridescent Design and Fusing Decal project kits. Each is specifically created to allow you to replicate the projects done in your favourite workshops: *Fusing with Mica and paint*, *Sandblasting and fusing with iridescent glass* and *Decal delights!* Each kit includes detailed instructions, firing schedules and glass.

Bring back your piece to kiln fire and slump or do it yourself at home. *Firing fees apply.*

Kits can also be ordered at orders@glasstronomystudios.ca and shipped to you.

Members' events

We have an exciting series of members' events scheduled over the next few months. Beginning with our Instructors art glass cook off on April 28, followed by Mother's day tea on May 12, and the members' Art show on June 1 and 2.
